NON STANDARD COLOURS

We hold many non standard colours/finishes in stock. If we are able to source your requirements from stock there will be no extra charge. If the colour/finish you require is not available from stock it can be sourced from our nominated supplier and charged at cost (price on application).

FIRE RATED SECURITY DOORS

Our new fire rated security door range offers an exceptionally wide selection of doors combining fire protection and LPS1175 security certification.

This door range comes with a full 4 hour fire rating (with the exception of some glazed options) together with Loss Prevention Certification Board (LPCB) Certification to LPS1175 Security Rating 1, 2 and 3.

Tested to the internationally recognised standard EN1634-1:2008 and approved by Exova Warringtonfire under the CERTIFIRE scheme.

HIGH SECURITY CERTIFIED DOORS

Suitable for all high security, personnel, fire exit, access control and substation (utility) applications.

Tested and certified by the Loss Prevention Certification Board (LPCB) to LPS 1175 Security Ratings 1,2 & 3 Issue 7.

- Triple Protection Anti-Pry Frame Profile - For defence against attack with a crowbar or other similar lever type implement.
- Internal Reinforcing adding strength without excessive weight
- Security Doors - with heavy duty single, two, three and four point locking options
- Fire Exit Doors - with panic bar or push pad options
- Utility Doors - with or without louvres for ventilation
- Access Control - with electro-mechanical locking
- 16 Point Locking

COMMUNAL ENTRANCE DOORS

Secured by Design Police Preferred Specification and PAS 23/24 Certification.

An attractive yet secure main entrance to any building, which is able to withstand heavy use and vandalism.

This range is suitable for all public buildings including the front and rear doors of communal accommodation, schools and offices.

SUBSTATION/ LOUVRED DOORS

Substation Doors are specifically designed for remote sites where ventilation is required and vandalism anticipated. Every door is individually engineered and custom made.

Built for strength and lasting construction our Substation Doors are the obvious choice for replacement of wooden doors on electricity substations with other applications including local authority bin stores.
