

CONTRACT GATES AND RAILINGS

**Project:** Shepley Avenue  
**Client:** Bolton at Home  
**Value:** Excess £198K (on going)

The project based in Bolton required the manufacture supply and installation of bespoke single gates, drive gates, wall top railings and railing panels. NVM also manufactured and installed frames to accept wooden panelling for the dividing fences.

North Valley provided significant Project Management and liaised closely with the Architects, Broadway Maylan in all aspects of design, security and safety.

A pilot scheme, the Shepley Avenue Great Estates project was highly commended in the recent Civil Engineering Benefiting Communities - the Community Award 2008.

**Project:** Hollins Estates:  
**Client:** Contour Housing Group  
**Value:** Excess £27m

The project, based in Oldham, required NVM to manufacture, supply and fit, bespoke single gates, drive gates, wall top railings and railing panels to approximately 450 properties, and required the application of a durable black Hammerite paint finish.

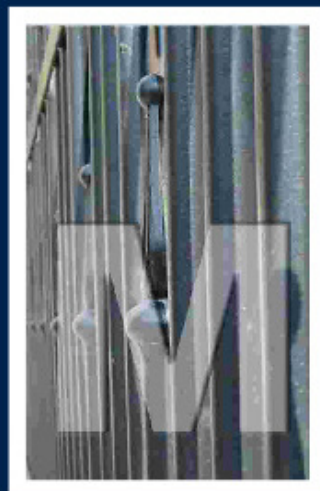

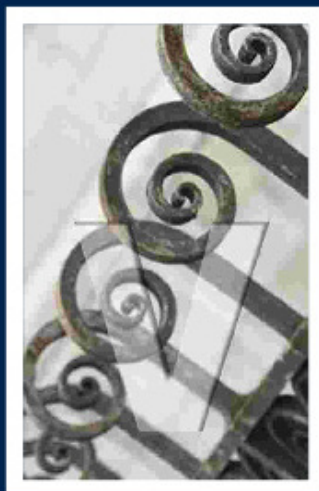

The contract with a value in excess of £420k was in 3 phases spanning 2 years and was completed on time and within budget.

North Valley Metal have been in the business of manufacturing and installing contract gates, railings and metalwork since 1966 and have a wealth of experience in dealing with the situations that often arise with contract installation.

NVM Contracts, the gates and Railings division of the NVM Group, specialise in regeneration, new build and commercial projects operating from a dedicated fabrication, manufacture and painting plant.

We offer a complementary range of services, including design, liaison with architects and Project Management, all of which are tailored to suit each project and ensure that contracts are completed on time and to budget.

Importantly, we do not use sub-contractors ensuring we have complete control over every aspect of the project, from concept to manufacture and painting through to installation and sign off. Each stage is project managed by a dedicated and experienced Project Manager, who works closely with site personnel throughout the life of the project to guarantee all aspects of quality, installation schedules and client amendments.

To whom it may concern

Project: Bolton Great Estates - Shepley Avenue, Bolton  
Description: External upgrade to residential area.  
Client: Bolton at Home  
Contractor: Caseys Reclamation Ltd  
Landscape Architect: Broadway Malyan  
Construction budget: £890,0000

North Valley Metal has been instrumental in the successful delivery of an award winning residential uplift scheme in Bolton.

This challenging scheme required the provision of brand new steelwork in the form of wall top railings, boundary railings, pedestrian gates and driveway gates to all 52 properties on Shepley Avenue.

North Valley Metal stepped up to the challenge and were able to interpret complicated bespoke twisted steel designs and produce a high quality finished product that met the satisfaction of the designer, the client and the residents themselves who are thrilled with their new secure frontages.

North Valley Metal was particularly accommodating when confronted with some highly complicated level issues across the site. They were extremely resourceful and compliant with amendments required to the fabrications on and off site.

Samples of all the products were fabricated for approval prior to full production, which allowed us the flexibility to make adjustments where necessary.

In summary, North Valley Metal has provided an excellent service on this particularly challenging project and we would not hesitate to use them for future projects of a similar nature.

**Project:** Wigan Holt Street  
**Client:** Wigan & Leigh Housing  
**Value:** Excess £2m (on going)

Part of a multi-million pound refurbishment program, NVM was contracted to manufacture and install gates and railings to properties within the sheltered housing sector. This required the manufacture of a scroll design to all railing panels, single and bi fold drive gates. All metalwork was painted using a high build black polyester powder coating to pre-galvanised metal. This project was completed on time to budget, and great care was taken to minimise disruption to residents

**Project:** Brownlow Avenue  
**Client:** Bolton at Home  
**Value:** Excess £1.5m (on going)

Due to the success of the Shepley Avenue project, North Valley Metal was awarded the Brownlow Avenue pilot scheme. Another innovative design, NVM was required to provide full Project Management, manufacture and installation of Gates, Drive Gates and Railings.

NVM was involved in the design aspects of the gates & railings which required the fitting of laser-cut shaped panels.
