

SEASONS GREETINGS

All the staff at NVM would like to extend our warmest Seasons Greetings and a Happy New Year for 2013.

After another hugely successful year we would like to thank all our customers for their continued support and look forward to a prosperous 2013.

In a busy year, we welcomed Topscan, Optex and Technoware to our family of suppliers; continued to develop our range of Nice M-Tec Direct Drive Motors to include Expansion Cards and Electronic Limits and improved our range of Flange Mounted Motors including new Endplates. We expanded our range of Automatic Sliding Door Kits, including a new Hingeless Hood, new Control Panel with additional functions and a wider range of Door Guides, Morning Entry Key Switches and Function Keypads.

We were also pleased to announce the introduction of a new range of Wireless & Wired Rocker Switches and Receiver Switches.

NEW FOR 2013

So what have we got planned for 2013? Never one to rest on our laurels, we have some exciting developments lined up for next year as we continue to improve and increase our product range, all of which will be announced as they come on line. In the meantime, we are pleased to announce the launch of our new **Safety Edge System** which will be available in January.

We are also pleased to announce that NVM has joined forces with **Ditec** and in the new year will offer a comprehensive range of **Automatic Sliding and Swing Door Operators** which will complement our existing range of operators.

In addition, NVM will also offer the **Ditec High Speed Door range**, available in kit form.

Ditec Joins Forces with NVM

We are pleased to announce that from January 2013, NVM will become a distributor for Ditec and offer an extensive range of Automatic Door Kits and Swing Door Operators.

We have agreed some very exciting terms with Ditec and look to forward these onto you, our customers.

NVM will stock the Rex Range of Automatic Sliding Doors in kit form and can offer Track & Hood in either bar length or pre-cut to length.

The Ditec Rex Automatic Sliding Door range is a well-respected and established product throughout Europe and the UK, and we believe will be a welcome addition to our existing Automatic Sliding Door Range, giving our customers an even wider choice of options.

In addition to the Ditec Automatic Sliding Door Kit range, NVM will also offer the WEL-E, WEL-S and Sprint Swing Door Operators.

With a wide variety of functions and Access Control, the Ditec range of Swing Door Operators will complement the existing range offered by NVM.

WIRED SAFETY EDGE SYSTEM

For 2013 NVM are pleased to announce the launch of our new Wired Safety Edge System.

Simple and easy to install, the new Safety Edge System will fit all common Garage Door Systems, Industrial Doors and Shutters.

Available in a range of gaskets, the system is supplied in an easy to install kit, with all gaskets available in either pre-cut lengths or in rolls of up to 50 metres.

The system is fully functional with our range of Controller / Receivers including our NT1103 Garage Door Controller and NT1006 Basic Controller.

The wide range of Rubber Gaskets will suit any installation from a Garage Door to an Industrial Roller Shutter, to a Traffic Barrier, and all designed to work on a single Transmitter.

The system is supplied pre-assembled for installation either directly into the bottom lath or fitted into an aluminium track.

For further information contact 01282 615239 or email sales@nvmgroup.co.uk

Deprat at NVM

As part of our continuing process to offer the widest range of Adaptors, Dummy Ends and Idlers possible, we are pleased to announce that a full range of Deprat Adaptors and Dummy Ends are now available to suit our "S Series" range of Tube Motors, including 50nm, 100nm, and 140nm, in body sizes of 45mm & 59mm to suit 65mm & 89mm Deprat Tube.

High Speed Doors from NVM

In a further move to offer the widest choice of products possible, NVM are pleased to announce the introduction of our Ditec Rapid Door Kit range. Available and supplied as a complete kit within approximately 15 working days from order, we believe this to be one of the best Rapid Door Kits on the market.
