SPECIAL OFFER **FREE!** GEBA PRE-PRINTED OWN COMPANY FACE PLATES

Have your company logo or company details pre-printed onto Genuine Geba Key Switch face plates for Free when you order 50 or more NV245 Geba Key Switches.

Simply send us your artwork in either .jpeg or .bitmap format and we will reproduce it in single colour and print it onto the Geba Switch face plate.

It is permanent, waterproof and will keep your name, number and logo in full view every time your customer operates the shutter.

This is a limited offer not to be missed. Our standard price for reproducing the art-work alone is over £80.00.

NT1004W PRODUCT UPGRADE

North Valley Metal is pleased to announce the release of our new upgraded NT1004W Controller / Receiver with Remote Control.

The genuine NVM Branded unit will now accept up to 50 Fobs, including our NT1016, NT1017. .Multi-Channel Fob and NT1117 wireless Switch.

In addition, the Unit is supplied Pre-wired with 1500mm of standard 3 Core flex and 3 Pin Plug, and Plug-In Terminals reducing installation time and costs.

The Unit is supplied with 2no NVM NT1016 Key Fobs.

For further information contact us on **01282 615239**
or **email: sales@nvmgroup.co.uk** or check it out on the
website at: <http://www.nvmgroup.co.uk>

NT1006E PRODUCT UPGRADE

North Valley Metal is pleased to announce the release of our new upgraded NT1006e Controller / Receiver with Remote Control.

The genuine NVM Branded unit now accepts up to 50 Remote Devices, including our NT1016, NT1017 Multi-Channel Fob and NT1117 Wireless Switch.

A key Technical Upgrade is the new Built-In Run Timer and separate Terminals Blocks for a Manual Switch and Photocell.

The Built-In Run timer works in conjunction with the Photocell Function to ensure the Photocell is switched off after 45 seconds of the door closing. This guarantees the Photocells cannot be activated other than via the operation of the unit whilst still being set to Stop and Return. No other comparable unit on the market can offer this flexibility and security.

In addition, the Unit is supplied Pre-wired with 1500mm of standard 3 Core flex & 3 Pin Plug, and Plug-In Terminals reducing installation time and costs.

The Unit is supplied with 2no NVM NT1016 Key Fobs.

For further information contact us on **01282 615239** or **email: sales@nvmgroup.co.uk** or check it out on the website at: **http://www.nvmgroup.co.uk**

INTRODUCING THE NV237

North Valley Metal is pleased to announce the launch of our new NV237 Double Pin Lock Isolator with Built-In Key Switch.

The NV237 is supplied complete and pre-wired using a standard 16amp Geba Key Switch and ready for connection to any Control Panel, Fuse Spur or directly to a Single Phase Motor.

So what are the benefits of the NV237:

- ✓ Supplied in a Steel zinc Plated Lockable Key Switch Box for security.
- ✓ Can be fitted to the outside of the building, ideally suited for Shop fronts where there is only a single entry.
- ✓ Protects the motor from being operated if the Pin Locks are still in the Guides.
- ✓ Can only be operated with the Key Switch, adding additional security.
- ✓ Can be supplied with Bullet Locks and Housings on product code NV237A.

For further information contact us on **01282 615239** or **email: sales@nvmgroup.co.uk** or check it out on the website at: **http://www.nvmgroup.co.uk**
