

We would like to take this opportunity to wish all our customers a Merry Christmas and a Prosperous New Year.

We never take your business for granted and hope to enjoy a successful relationship with you all again in 2017.

Please note that our annual Christmas shutdown will take place from 23rd December - 2nd January inclusive. Last day for Carrier collections is 22nd December for next day deliveries and first carrier collections from NVM will be 3rd January 2017 for next day deliveries.

NVM ADD TO ACCESS CONTROL RANGE WITH NEW PUSH PADS

We are pleased to announce the addition of 3 new Push Pads to our Access Control Range for Automatic Entrance Systems.

The new Push Pads conform to all current legislation and offer two choices of etched faceplates and 2 sizes.

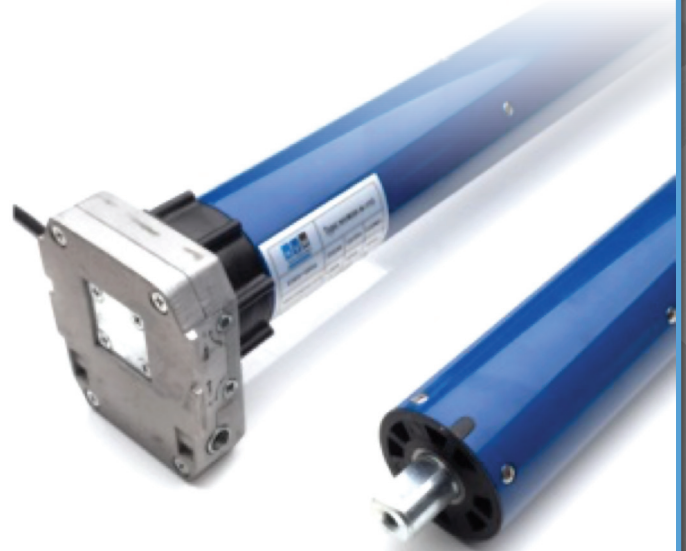

Supplied in a Brushed Silver Finish, Push Pads are available from stock in either, 152mm x 152mm "PRESS TO OPEN" and "PRESS TO OPEN" with Disabled Badge, or 115mm x 115mm with "PRESS TO OPEN" with Disabled Badge.

Push Pads are Volt Free / Low Volt connection and will operate all NVM SDK Series Automatic Sliding Doors and Swing Door Operators including our new SDK110 Series.

Push Pads are supplied complete with etched Face Plate, Backing Box and Fixing Screws.

B SERIES TUBE MOTOR UPDATE WITH 120nm & 150nm TUBE MOTORS

NVM are pleased to announce we now offer our B Series Motors in 120nm and 150nm options.

The 120nm Motor replaces the successful 110nm Motor and for customers who prefer a 150nm version, we have launched that to.

Both the 120nm and 150nm have the same specifications as the previous 110nm Motor, both using the same Motor Head with the same fixing options of Star Bracket or the unique 4 Fixing Lugs and Flat Fixing Plate and shaft speeds of 12rpm for both models.

The new Motors can be retro fitted to any shutter where a 110nm B Series Motor has been fitted.

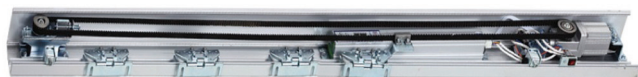

The 120nm and 150nm are also supplied with the combination Adaptors to suit 70mm Octagonal and 4" Round Tube, Manual Override and Extended Rigid Eye.

NVM LAUNCH NEW AUTO-DOOR PANEL

We are pleased to announce the launch of our new SDK110 Series Mainboard Control Panel.

The new Control Panel is compatible with our popular SDK100 Series Kits, including Motor, Track and all Control Functions.

The big difference is in the self-learning technology, whilst the unit is also fully compliant with EN 16005.

The unit offers all the functionality of the standard SDK100 Series Panel including:

- Motion and Presence Sensors for Threshold Protection
- Side Safety Sensors
- Remote Control
- Battery Back Up Device
- Morning Entry Key Switch
- Multi-Function Switches
- Access Control including Push Pads, Push Buttons
- Safety Control including Electric Locks, Photocells
- 24v & 12v DC Outlets
- NO & NC Terminals
- Compatible with Hotron and Optex T/TN fully Monitored Sensors.

Along with all the functionality comes an array of variable settings including:

- Independent Opening and Closing Speeds
- Independent Buffer Speeds
- Variable Buffer Distance for both Open & Close
- Independent variable Resistance Settings
- Full Self-Learning Software
- Digital Display
- Independent Function Setting including Fully Open, Partial Open, Fully Closed, Exit Only, Fully Automatic

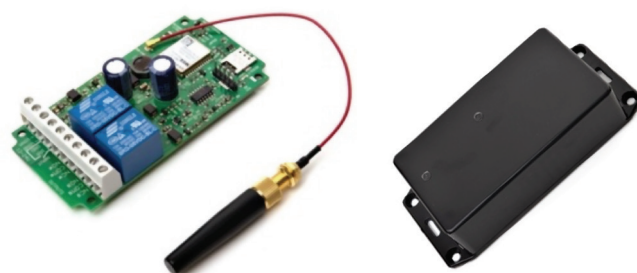

NVM LAUNCH NEW 4 - CHANNEL RECEIVER WITH GSM & MOBILE TELEPHONE OPERATION

NVM are pleased to announce the launch of our new 4 Channel Receiver with GSM and Mobile Telephone operation via SMS or Call.

The new Unit is supplied as either a PCB board for installation into an existing panel or with its own housing and comes with a range of features.

The unit is powered via a 12v - 24v Dc supply and a Relay Output of 5a maximum whilst the Sim uses 1.8v - 3.6v.

The unit is fully compliant with GSM Phase 2/2+ Class 4: 850/900Mhz and Class 1: 1800/1900Mhz

Features:

- SMS Activated Relay
- Allows up to 512 Stored Telephone Numbers
- Call not answered to activate the Shutter
- No call charges
- Set up via SMS
- NO and NC Terminals
- Deadman Function
- Variable Call Timer from 1s - 999s
- Can be set as Master or User access. (Master has access to Phone Number List and can Add or Delete Users.)
- Both groups can operate the relay via SMS or Telephone Call.
- Compatible with NVM Controller / Receivers including NT1006, NT1006e, NT1103, NT1203
